Guides to Implementation of the (Revised) PSI Directive in Ireland

This is a data strategy document that includes:

1. Open Data Technical Framework, covering five key components for publishing Public Service data in a way that will make it more discoverable, accessible, interoperable and reusable.
2. Guide for existing and potential Open Data publishers, in particular Government Departments and public bodies who wish to publish Open Data on the data.gov.ie portal.
3. The re-use of PSI that provides links to legislation.
