 Company:	IrCELine
 Sector:	Environment
 Product / service:	Website
 Type of data:	Meteorological data
 Origin:	Belgium

**Description**

IrCELine is an air quality checker for Belgium. The website provides actual figures and forecasts of the levels of nitrogen-dioxide and particulate matter (PM2.5 and PM10). In addition, a map overview is shared that classifies the current levels as very good, good, poor, or bad.

Benefits

IrCELine provides an accurate and real-time overview of air quality across the whole of Belgium. This enables citizens to evaluate how the local air quality impacts their health.

Informing you on ambient air quality
in the Belgian Regions
