Quick facts

-  Company: Indigo Group
-  Sector: Regions & Cities; Transport
-  Product / service: Application
-  Type of data: Data on parking lot availability
-  Origin: Canada

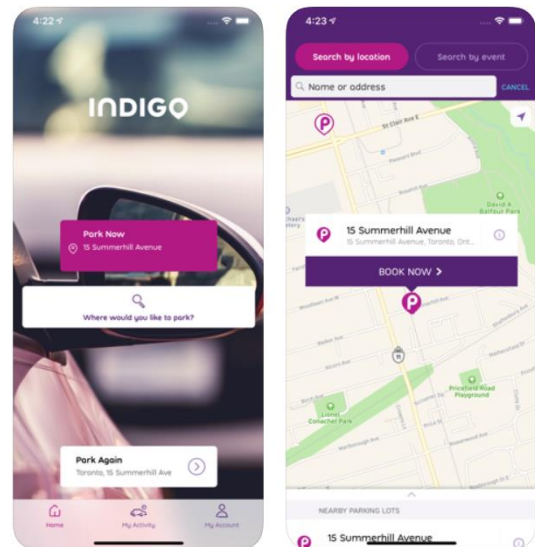

Description

With the Park Indigo application drivers can enter their destination and choose the nearest available parking location, which can also be saved as a favourite parking lot. Additionally, parking lots can be reserved and parking costs can be paid via the application.

Benefits

-  With the Park Indigo application finding a parking spot and paying at a parking lot becomes way more convenient for drivers.
-  Through the possibility of reserving a parking lot in advance, drivers will not need to wait and search for a parking lot.

How open data is used

Data on parking locations and availability is collected and visualised on a map within the application.
