## Quick facts

-  Company: FindToilet
-  Sector: Health
-  Product / service: Application
-  Type of data: Local and national government data
-  Origin: Denmark

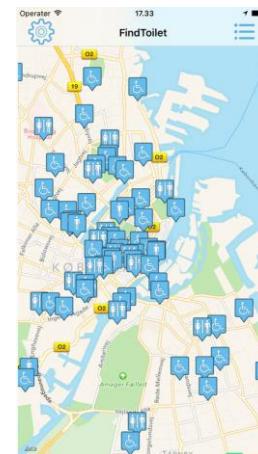

## Benefits

-  FindToilet shows people the nearest public toilet in selected municipalities.
-  The application shows information about the public toilet, such as its opening times and if there are accessible toilets.

## How open data is used

-  Open data is collected from local and national governments in Denmark and is then visualised on a map in the application to show people where the nearest toilet to their location is and what amenities are available there.

## Description

-  FindToilet enables people to find the nearest public toilet to their location. The application provides people with a map of where the toilets are located and additional information such as if they have a accessible toilet.
