<https://www.covid19dataportal.org/>**Quick facts**

 Company:	COVID-19 Data Portal
 Sector:	Health
 Product / service:	Website
 Type of data:	COVID-19 Data
 Origin:	Europe

**Description**

The European Commission and EMBL's European Bioinformatics Institute (EMBL-EBI), together with EU Member States and research partners such as ELIXIR, operate a dedicated European COVID-19 Data Platform that enables the rapid collection and comprehensive data sharing of available research data from different sources for the European and global research communities. It consist of a COVID-19 Data Portal, SARS-CoV-2 Data Hubs and Federated European Genome-phenome Archive.

**Benefits**

The European COVID-19 Data Platform facilitates data sharing and analysis in order to accelerate coronavirus research

**How open data is used**

To ensure availability of the latest data sets, the COVID-19 Data Portal is synchronised with COVID-19-related data and scientific literature.
