Quick facts

-  Company: Michael Culture Association
-  Sector: Education, Culture & Sport
-  Product / service: Portal
-  Type of data: Cultural data
-  Origin: France

Benefits

-  Michael Culture Association consolidates and fosters growing digital content from museums and libraries across Europe.
-  The portal allows its users to browse through European digital cultural materials online.

How Open Data is used

-  The Michael Culture Association acquires its data from public and private museums, libraries and archives and consolidates it all into one single portal, delivering a searchable digital database of European cultural content. Users can browse through the online content using identifiers such as subject, author, date and more.

Description

-  A portal promoting digital cultural content and creating a network among cultural institutions
