Kita-Suche

Platform

Re-use

URL	http://kita-suche.berlin/

Quick facts

- Company: Ideation & Prototyping Lab
- Sector: Education, culture and sport
- Product / service: Platform
- Type of data: Berlin daycare locations
- Origin: Germany

Benefits

- The platform provides the offerings of various daycare facilities in a clear and concise way.
- Makes it easier for parents to find and compare daycare facilities that meet their needs.

How Open Data is used

- The Ideation & Prototyping Lab at the Technologiestiftung Berlin developed this platform by obtaining Open Data from the state of Berlin regarding a wide range of daycare facilities in the city. The data is organised in a way that is easy to use for parents who need a daycare facility and shows detailed information such as opening and closing hours and extra attention to children with special needs.

Description

- A platform that maps daycare facilities across Berlin for parents that are in need of one
