Quick facts

-  Company: Toilet Map
-  Sector: Health
-  Product / service: Application
-  Type of data: Open database for public toilets
-  Origin: Germany

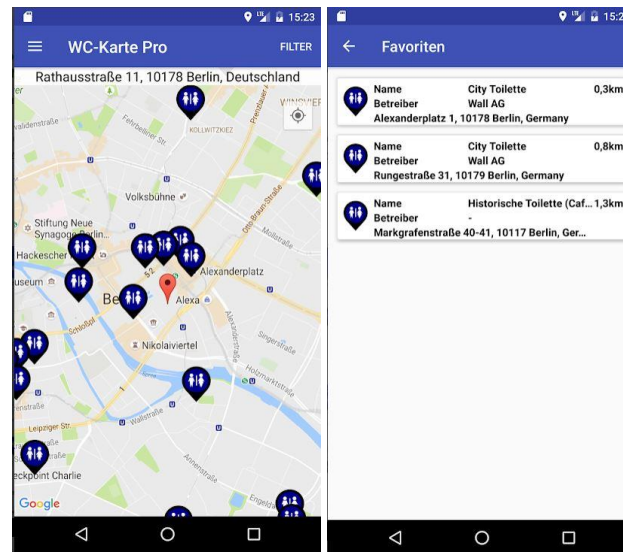

Description

Users of Toilet Map can find the nearest public toilet to their location on a map. The application provides the users with routes on how to arrive to the public toilet of their choice, and users can tailor their search to various criteria such as wheelchair accessibility. In addition, toilets can be saved as a 'favourite' for future planning.

Benefits

-  Toilet Map enables people to find the nearest public toilet tailored to their needs (e.g. wheelchair accessibility).
-  The application provides additional information about public toilets such as their providers, name, and opening times.

How open data is used

Toilet Map uses an open database with more than 150,000 publicly accessible toilets worldwide, including data about their amenities.
