## Quick facts

- 👤 Company: Swandiri Institute
- 👤 Sector: Government
- 👤 Product / service: Company
- 👤 Type of data: National agriculture and energy data
- 👤 Origin: Indonesia

## Benefits

- 👤 Swandiri Institute is able to identify vulnerable areas for certain trends and can mitigate the negative effects.
- 👤 The company uses open data to improve spatial transparency by comparing reported data to planning documents.

## How open data is used

- 👤 By researching national data Swandiri Institute identifies problematic trends such that NGOs and the government can plan on strategies accordingly.

## Description

- 👤 Swandiri Institute addresses sustainability by analysing trends from national datasets and proposing solutions to governmental agencies and NGOs. By doing this they also help farmers identifying pests and diseases in their crops early.
