|  Company: | Ministry of Economy & Finance |
|  Sector: | Economy & Finance |
|  Product / service: | Application |
|  Type of data: | Government data |
|  Origin: | Italy |

Description

Bilancio Aperto (Open Budget) makes state budget information accessible to the public, thereby increasing transparency of government spending and improving accountability. The application is designed for civil servants, parliamentarians and citizens, and provides access to revenues, expenses, balances, statement of accounts, the current budget, and budget laws.

Benefits

The applicaiton provides a general page with summary data highlighting the most significant information, which makes the complex structure of government spending relatively easy to understand. Users can browse data by categories, and download their content easily. In addition, the application provides a dedicated glossary that explains technical terms.

How open data is used

The data provided by Bilancio Aperto is public information, made freely and openly available for anyone to use and re use.
