URL http://www.youcity.org/

Quick facts

- Company: YouCity
- Sector: Regions & Cities
- Product / service: Company
- Type of data: Participative project data
- Origin: Italy

Benefits

- YouCity supports citizens and public organisations realising projects with social impact.
- Public administrations and NGOs can showcase their projects on the website and app, asking citizens to vote and crowdfund.

How Open Data is used

- YouCity uses Open Data from Italy's national Open Data portal and seeks to create a social dialogue around that data.

Future plans

- Keep extending and improving the interactive website and application functionalities.
