**Description**

MTender is a website created by the Ministry of Finance of the Republic of Moldova and provides electronic public procurement records to increase efficiency of spending, and contribute to transparency of the state's budget. As a digital service, it shortens the time between procurement planning and payment, as well as the time for tenders, and waiting times for suppliers and contractors.

Benefits

The website is useful for citizens interested in how taxpayers' money is spent, provides SMEs with access to a fully electronic procurement service, and supports public institutions looking to improve budget planning and procurement quality.

**How open data is used**

MTender combines data that is publicly available from several platforms: i.e. Lonar IT Solutions, Achizitii, yptender.md, EBS integrator, and e-licitatie.
