Bus Guru
Application

Re-use

URL	http://www.busguru.co.uk/

Quick facts

- Company: Bus Guru
- Sector: Transport
- Product / service: Application
- Type of data: Transportation data
- Origin: The United Kingdom

Benefits

- Bus Guru provides its users with both real-time bus schedules and recommendations on the best routes to take.

How Open Data is used

- Bus Guru uses Open Data from Transport for London, a local government body responsible for the transport system in London. Bus Guru integrates the data in an application, which commuters in London can use to plan their optimal journey by bus.

LONDON
Bus Guru
LIVE

Description

- Provides commuters in London with real-time information on local buses arrival times
