**URL** http://www.cityscale.com.ua/

## Quick facts

- Company: CityScale
- Sector: Regions & Cities
- Product / service: Portal
- Type of data: Crime, healthcare, environment, transport
- Origin: Ukraine

## Benefits

- Makes relevant statistics about cities in Ukraine available and easily accessible.
- Provides citizens and professionals with access to data on different aspects of living conditions such as crime levels, healthcare, pollution.

## How Open Data is used

- CityScale utilizes data from various public sources (such as local crime- and environmental data) to deliver intuitive visualisations on various urban statistics. Moreover, data from public documents and other types of unstructured data (e.g. PDF or HTML) is reused and put into more useful formats to support the re-use.

## Description

- Information portal providing access to data on multiple aspects of living conditions in cities
