Quick facts

-  Company: The Profs
-  Sector: Education, Culture & Sport
-  Product / service: Application
-  Type of data: Data on Universities and curriculums
-  Origin: United Kingdom

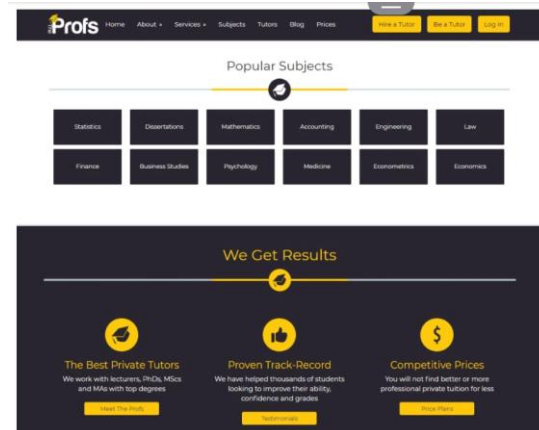

Description

That's Life is a web-based interactive game which uses gamification to help students to find out where they will end up as a result of particular higher education choices.

Benefits

-  Predictive capabilities – That's life projects data such as student's future level of happiness, work-life balance and income to show the impact of their life and course choices.
-  Engaging experience – That's life makes use of gamification which provides a more interactive and engaging experience for users.

How open data is used

That's life uses information from universities and their curriculums to allow users to simulate the impact of education choices and career paths.
