## Quick facts

- Company: Trulia LLC
- Sector: Regions & Cities
- Product / service: Website
- Type of data: Data on neighbourhoods
- Origin: United States of America

## Description

Trulia provides detailed insights into neighbourhoods for people that might be interested in moving there. Going beyond the typical listings, by sourcing insights straight from locals, users can get a deeper understanding of what living in a home and neighbourhood is like.

## Benefits

- With Trulia people can get an impression on the lifestyle and atmosphere in a neighbourhood before moving there.
- Through various filters, such as size, public transport connection, and pet allowance, Trulia can make suggestions according to users requests.

## How open data is used

Trulia collects data in form of original neighbourhood photos, drone footage, resident reviews and local insights. The service then organises the data and provides it on their website.
