### Quick facts

 Company:	InstaVIN
 Sector:	Transport
 Product / service:	Website
 Type of data:	National governmental data
 Origin:	United States

### Benefits

-  InstaVIN increases the buyers knowledge about the car they want to buy.
-  InstaVIN gives an honest report of the condition of an occasion car using vehicle history data.

### How open data is used

-  Data is gathered from the U.S. department of Justice and of law enforcements to get information on stolen vehicles.
-  The NMVTIS is used as a database which helps InstaVIN to determine vehicle safety and vehicle damages.

### Description

-  InstaVIN reports on a vehicle's history, such as information about the previous owners and mileage readings, hence informing potential buyers about the condition of the vehicle to guide the decision making.
