## Quick facts

- Company: Urbonaut.at
- Sector: Transport
- Product / service: Web application
- Type of data: Public Transport Data
- Origin: Austria

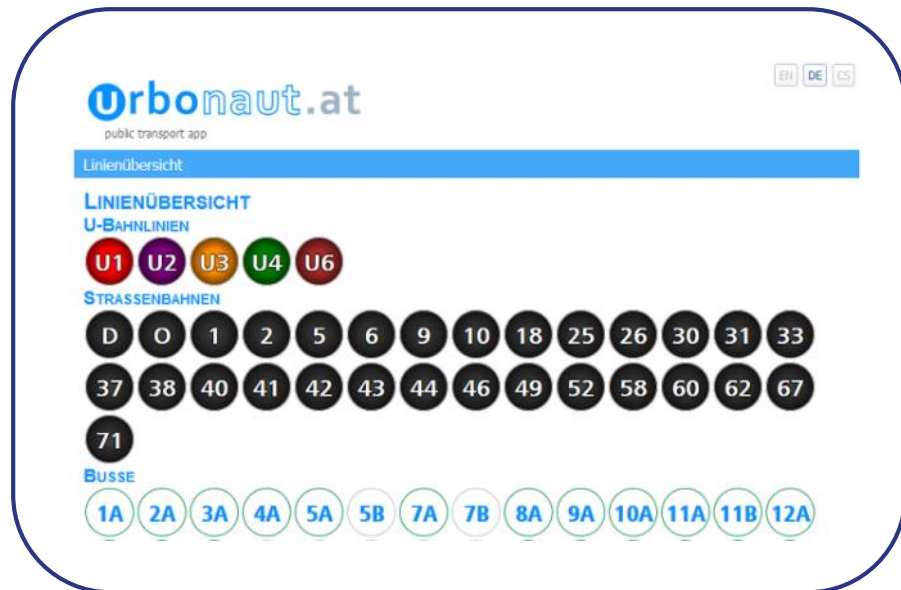

## Benefits

- This application provides real-time information about the public transport in Vienna.

## How Open Data is used

- The website uses Open Data (both real-time and static) available on the Austrian Open Data portal, e.g. on stations and on bus lines.

The screenshot shows the 'Linienübersicht' (Line Overview) page of the Urbonaut.at app. At the top, there are language selection buttons for 'EN', 'DE', and 'CS'. Below the app title 'Urbonaut.at' and subtitle 'public transport app', the page is titled 'Linienübersicht'. It is divided into three sections: 'LINIENÜBERSICHT', 'U-BAHNLINIEN', and 'STRASSENBAHNEN'. Under 'U-BAHNLINIEN', there are five colored circles representing metro lines: U1 (red), U2 (purple), U3 (orange), U4 (green), and U6 (dark red). Under 'STRASSENBAHNEN', there are two rows of black circles representing tram lines: the first row contains D, O, 1, 2, 5, 6, 9, 10, 18, 25, 26, 30, 31, 33; the second row contains 37, 38, 40, 41, 42, 43, 44, 46, 49, 52, 58, 60, 62, 67. Below these is a single black circle for line 71. The 'BUSSE' section at the bottom shows a row of light blue circles representing bus lines: 1A, 2A, 3A, 4A, 5A, 5B, 7A, 7B, 8A, 9A, 10A, 11A, 11B, and 12A.

## Other information

- The application provides information on different public transport modalities: metro lines, trams, buses, night buses, the sight seeing line, S-Bahn lines and the local train.
