Quick facts

-  Company: Carambla – Park Smartly
-  Sector: Transportation
-  Product / service: Application Service
-  Type of data: Geospatial
-  Origin: Ghent, Belgium

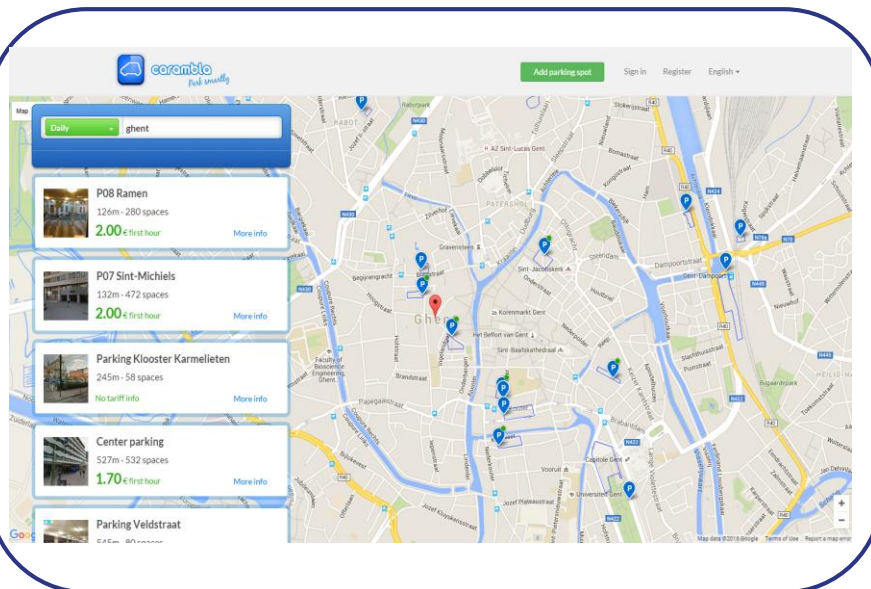

Benefits

-  Connects professional, public and private suppliers of parking spaces to drivers.
-  Guides drivers to the nearest and cheapest parking in Belgium.

How Open Data is used

-  The app uses real-time Open Data on the available spaces in parking garages.
-  The app uses Open Data about the location of all sorts of parking, for example for coaches, disabled drivers or motorised two-wheelers.

Future plans

-  Creating more awareness to have more private owners offering their available spaces.
-  Having further expansion plans for Europe.
