NeverRun

Quick facts

- Company: Never Run
- Sector: Transportation
- Product / service: Application Service
- Type of data: Transportation
- Origin: Prague, Czech Republic

Benefits

- Live transport map, showing the position of transport vehicles around you.
- Reduction of travel time for everybody who commutes daily in Prague.

How Open Data is used

- The app uses Open Data supplied by the municipality, providing position data of all means of transport.
- The data is plotted on a map and combined with the user's own location.

Future plans

- Prague is planning to launch a real server soon and the app will be ready. The project started during the Prague Hacks hackathon.
