PulsePoint
Application Service

Release

URL	http://www.pulsepoint.org/

Quick facts

- Company: PulsePoint
- Sector: Public health
- Product / service: Application Service
- Type of data: Location
- Origin: USA

Benefits

- Reducing collapse-to-CPR times by increasing citizen awareness of cardiac events.
- Reducing collapse-to-defibrillation times by increasing location awareness of public defibrillator.

How Open Data is used

- The app combines emergency calls with location data.
- The system alerts CPR-trained bystanders through the PulsePoint Respond mobile app and lets them know the location of the closest defibrillator to provide assistance.

Future plans

- PulsePoint president named to government technology's top 25 innovators in the public sector.
- Long-term mission: Provide seamless PulsePoint coverage across the globe.
- Short-term mission: Get integrated into the local emergency call centre in order to get access to real-time data.
